Salem Saturday Market

Guidelines For New Growers/Produce

The Grower Jury Committee will evaluate all new grower/vendor products to be sold at market. ***All returning vendors with new products will need to be juried also.*** A jury review will ensure products meet the market product guidelines and criteria. The goal is to support new growers while also balancing market diversity for economic viability of all participating growers. All new growers admitted will be subject to a one season trial period; status will be reviewed after that time. The jury's product review is based on the following market standards:

Criteria for vendor selection for jury review

All Farm Products* and plants sold at market must be grown and harvested by SSM member and have a fresh and healthy appearance.

Bedding and landscape plants and flowers must be propagated by the vendor from seed, cuttings, bulbs, plugs or plant divisions and must be grown by the vendor and must have been under the vendors control. All plant growers must have a nursery license. A copy must be submitted with Grower Application.

All Grower/Vendor applicants agree to a farm check to verify products are grown at farm locations listed on their application.

Growers may be visited by a committee or board member to review your product, booth presentation, and answer any questions you may have about market. All applicable licenses, certifications and "Growing Methods Disclosure Statement" must be available at the market.

*Farm Products are grown or raised by the farmer upon land that s/he controls through ownership, lease, rental, or other legal agreement. These products are fresh fruits and vegetables, nuts, honey, eggs, herbs, meat and dairy products.

I have read and agreed to the above rules.
